

**LANGSHIRE PLAN**  
MAY BE AVOIDED  
Washington, January 18.—The plan for the development of the water power resources of the Pacific Northwest, which has been approved by the Federal Power Commission, may be avoided by the construction of a dam on the Snake River, according to a report from the Pacific Northwest Electric and Light Association.

Canada's banks have  
**7,000,000 bosses.**

Your bank account is one of seven million. Yet keep it in the bank of your choice. A bank waits by the confidence of its depositors. That's the bank.

**YOUR BANKS** operate under charters granted by Parliament, which every ten years reviews and renews them.

Above all, the depositors in the controlling factor—the safety of depositors' funds is a bank's first concern. As a depositor, you are a free choice—yours is the power which keeps the bank afloat to your needs.

And it works out. Imperial authorities have called Canada's banking system one of the soundest and most efficient in the world.

Contrast this Canadian way with conditions in lands where freedom is desired—where every bank is a political tool, every banker a State official. State monopoly of banking, proposed by socialists here, would open your banking institutions to political interference.

**SPONSORED BY YOUR BANK**

### HASTING LAKE WEDDING BELLS

### What Makes an Auto Go?

You may say it is the engine and think that, but you have given a reasonable answer. It is correct, of course, but you have not given the complete answer. The engine is the heart of the car, but it is not the only part that makes it go. The transmission, the drive shaft, the axles, the wheels, and the tires are all part of the system that makes the car move.

### Now is the time to WINTERIZE

All automotive machinery is subject to temperature changes, and when the icy blasts of winter come, your car, truck, or motor vehicle must be winterized. This is a critical time to ensure that your vehicle is in the best possible condition to handle the winter weather. Winterizing your vehicle can help prevent breakdowns and ensure that you are safe on the road.

**7,551,058\* bank accounts**  
You TAKE for granted that your bank keeps your account private... even though yours is one of more than seven million deposit accounts in Canada's 3,388 branch banks.  
When you put money in, take it out, arrange a loan—transact any of your banking business—nobody need know about it but you and your bank.  
It's the most confidential business relationship you have.  
Canada's ten chartered banks compete to serve you, in handling your checks, lending money, safeguarding your funds—and in many other ways. You know you can always expect privacy and efficiency.

**State carefully of bank would urge and competition would urge your bank account to the eye of the state official.**

# Piano Recital Is Outstanding Success

When the piano recital given by the Tofield Junior High School, under the direction of Miss M. J. Francis, was held at the Tofield Junior High School, it was an outstanding success. The recital was held in the gymnasium of the school and was attended by a large number of guests. The program consisted of a variety of piano pieces, including classical and modern compositions. The students performed with skill and confidence, and the audience enjoyed the performance. The recital was a great success and was well-received by all who attended.

**TODAY AS IN 1945**

As then, in 1915, the Liberal Government is responsible for farm policies which have ensured stable markets and assured returning trade to the greatest prosperity, even in the most depressed of the country. Farmers are better off than at any time in Canada's history.

**We said then and we say now:** **We said then and we emphasize now:**

**"There's a future in Farming!"** **"Liberal Policies Create Jobs"**

**We said then and we repeat now:** **We said then and farmers agree:**

**"Liberal Policies Create Jobs"** **"Liberal Policies, made by hard-headed farmers, are practical for farm products"**

## KETCHAMOOT

Mrs. Curtis Overton from Indiana writes: "I have been using Ketchamoot for several years. Because at that time I was in the dry state of Indiana, I found only in the dry state, has become a common farm practice in the dry state of the Pacific Northwest."

**Keets in Many Ways.** The trade name of Ketchamoot is "Ketchamoot." It protects the soil from ponding rain. It also deters the growth of weeds and grasses. The ground the Ketchamoot is applied to the surface provides channels for water to run off. It also runs into the soil. The result is less run-off, more moisture in the soil, and less evaporation.

**Keets of Machines.** The only way to apply Ketchamoot is by using a machine. The machine is a small, hand-operated, portable machine. It is made of wood and metal. It is easy to use. It is also very durable. It will last for many years. It is also very cheap. It costs only a few dollars. It is also very easy to maintain. It is also very easy to use. It is also very durable. **IN YOUR HOME . . . ON YOUR FARM**

The Spay Lakes project is a \$7 million dollar pledge by this Company that will meet your individual needs as well . . . in your home, or your farm. It is power insurance for you for years to come — a power for new appliances and even homes! This the Company started to serve you. The Spay Lakes project is progress, for Alberta and for you.

**IN YOUR TOWN**

The Spay Lakes project is a capital expenditure which this Company is making to assure your town's continued growth, and without increasing by a single penny the taxes you pay. Your town will have its electrical needs met by a company the fastest you pay, your big town should have them there too, regardless of how large your town is. By direct street power, power will be there to serve you by business, street by this business-managed utility.

**IN YOUR DISTRICT**

The Spay Lakes project will benefit your district in two ways. Through assuring abundance of power for rural electrification it will bring a higher standard of living to your farms, and lower farming costs. By assuring continued development throughout the Province — with increasing demands and more industries for many of our people — your district means and better cash markets for many of your products. The Spay-Lakes project means progress for all.

### PLANE ENABLES VETERINARY SURGEON TO COVER HALF OF SASKATCHEWAN

**PLANE ENABLES VETERINARY SURGEON TO COVER HALF OF SASKATCHEWAN**

*(Continued From Page 1)*

Dr. Ross McIlwain of Moose Jaw, one of two Saskatchewan veterinarians who accompanied the plane on the previous trip, says, "It is a shame to have lost the plane, but it was a very good horse and a very good pilot. It is a pity that the horse and buggy veterinarian must be a scoundrel. He would be cutting the plane with axes, taking right up to farm corners. The plane has a two-way radio."

Dr. McIlwain says that the plane is one of the best in the world. It is a very good horse and a very good pilot. It is a pity that the horse and buggy veterinarian must be a scoundrel. He would be cutting the plane with axes, taking right up to farm corners. The plane has a two-way radio."

**Argentine Men**

The Argentine nation has declared a school on the third mile of the Federal Capital. The school is a very good horse and a very good pilot. It is a pity that the horse and buggy veterinarian must be a scoundrel. He would be cutting the plane with axes, taking right up to farm corners. The plane has a two-way radio."

**U.K. Danish Contract**  
The British Ministry of Food has announced that an agreement has been reached with the Danish Government on a new contract for butter, effective from 1.1.1948 to September 30, 1955. Under the contract the United Kingdom will supply the United Kingdom with 55 per cent of her annual portable supply of butter with a minimum of 115 thousand tons in any year and increased supplies of feed will be made available to hog producers. The additional allocation will amount to 160 thousand tons a year, an increase of more than 50 per cent of the present supply. The allocation will be on the basis of 520 lb. for every 100 lb. of pig produced, to ensure that the additional feed will be used for hog production only.

The Austrian Minister of Agriculture has recently announced a four-year plan which is expected to bring Austrian agricultural production back to pre-war level. It envisages a considerable increase in wheat acreage...

We are most fortunate in the choice made for our slight difficulty. We are a most scenic place. There is lots of fresh air, sun, and shade. Supplies are also here. We're receiving all right; our chance are glad-ly being lifted to our Heavenly Father, and He is so good to us.

Sincerely,  
Do not let your wings atrophy with cooperation from the National Parks Service, the Nation of Museum of Canada, the Geological Survey, and the Department of Agriculture. Work on the project was begun this summer in Point Pelee National Park, Ont., which contains a good cross-section of various ecosystems within a comparatively small area.

# Let's Eat

BY  
BARLEY ALLEN

It was a beautiful day, and I was out for a walk when I saw a sign that said "Let's Eat". I was hungry, so I went in. The waiter asked me what I wanted, and I said "I'll have the same as you". He brought me a glass of water and a plate of food. I ate it all up, and then I asked him for the bill. He said it was five dollars. I gave him the money, and he said "Thank you very much". I went home and told my wife what had happened. She said "That's a good idea. Let's go to that restaurant every day." So we did. And that's how we got our money.

By this time the chef had finished putting together the more important ones, and had slipped them in the oven to bake.

"Now, meantime, I will show you the rest of the dinner." He opened the refrigerator and took out several packages. "Here is this bag

the mould has no cover, I stirred  
some water in, gave it a few  
more turns, packaged it, wrapped  
the fresh potatoes and the water  
around that I plan to use as a  
base in this freezing trap to the average  
household shelter for drier. The  
trap is also used to dry herbs, so  
I can use the shelter in autumn  
and it will not stick."

**Science turned their backs on the target**

Science is playing an increasingly important role in Canada's new Army. Heavy and accurate, for example, complex radar equipment predicts to within a few feet exactly where the target is and will be. The gunners, their backs to the target, use by aiming an artery by instrument.

Training men in the use of modern scientific equipment is a major requirement in Canada's new Army. Thousands of young men are attending one of the finest schools in the country, specializing in electronics, radar, radio and telephone. In addition, there are openings for clerks, drivers, mechanics and many other trades.

New higher pay, good food and quarters, trades training and the opportunity for advancement make the Canadian Army Active Force one of the most attractive careers open to young men today. You are eligible if you are 17 or over and can meet Army requirements. Visit your nearest recruiting office for full details. Bring references of friends and education with you.

# Follow the Yellow Head Road

Editor's Note: From time to time we receive from the Yellowhead Road, a number of letters from motorists who are having trouble in following the Yellowhead Road. We are now publishing a series of articles on the Yellowhead Road, which we hope will help you to follow it more easily. The Yellowhead Road is a beautiful road, and it is a pleasure to drive on it. We hope you will enjoy it as much as we do.

## HUGH PEGRUM

JOHN DEERE DEALER, TOHOLD

We are pleased to announce that we have been appointed agents for the famous GILSON Chemicals and Farm Appliances. These include among other things, the famous Gilson Horse Brand Washers, the famous Gilson safety spring bath gas and gas stoves. The Gilson Electric Refrigerator, electric fan and steamers. The Gilson is an old American Company which has commenced manufacturing at Omaha, Nebraska. Their products have been used by such grade F1 RHABANT BRAND FERTILIZER

Order your spring requirements now. The company manufacturing this fertilizer have been urged to ship to Europe but we want to take care of all Canadian orders first. It may not be easy to get Elephant Brand Fertilizer later on in the season.

part to be able to come to Canada and I let her husband come this time coming spring and we understood it might all result at Telford.

Mr Miller has been in Canada a year or more spending most of this time at Telford. He is a friend of Mrs. Martin Gauthier, also a Hollander, they having been so married together.

**CARD OF THANKS**

We wish to extend thanks to all those kind friends for their many cordial expressions of sympathy during the illness of our dear friend.

The Course at Thetford is sponsored by The Farm Group and is headed by the Board of Trade.

Mr. Wythe now stayed on a visit to Bruce to himself and Mr. Churchill to interview Mr. Jack MacIntyre who has established a great reputation at this point. Although the latter is still operating as yet they were of the opinion it was essential to have him in the country but for need convincing Mr. MacIntyre advised that the Government demand was great much he would be prepared to conduct the plant as a sole concern in the country.

Mr. Churchill agreed that the Government are handling the situation but he was not so sure of the results but long with grain that all received by the Board have been given to them. He also advised that they will be taking orders from the Crop Seed, Cattleseed, etc. and will give to the Government "No Compulsion". This campaign he to promote better farming and to encourage people have been placed with the help of the Government. But of other things the different towns in the Ministry. If the Government of the country will be obliged to take action, giving etc. it would not be feasible to take action in the country.

to discussion of wood cleaning facilities in the Municipality. The board were of the opinion that the plant should be taken by the Board for installation of equipment for wood cleaning. The general opinion of the Board was that they felt that it was feasible to establish several smaller plants in a few of the main streets through the entire city district in to build one large plant.

It was felt that a suitable plant could be put in operation for between \$100,000 and \$150,000.

that the world would experience a considerable increase in the mill rate. One mill gives a revenue of approximately \$10,000 to the State of Michigan. It would therefore require an increase of many mills to erect these buildings, even if the building program were spread over a number of years. Furthermore, if such a policy were adopted, there would be no Government assistance.

whatsoever.

During the last few years, school divisions and districts in Alberta have borrowed millions to build new schools. This year according to the Minister of Education between 5 and 10 millions will be borrowed for this purpose. That is the danger that the Golden Rule is not alive in its efforts to advance

center was the theme of the meeting. In addition Mrs. J. J. Hily gave a very interesting account of All-rite Conference Branch Meeting which she attended as a Mainwright Presbytery delegate in March.

A delicious afternoon tea was served in the club room of the Church after the close of the meeting by members of the auxiliary.

United Church Ladies Aid

A special feature of the meeting will be a demonstration on 'Making a Drive Home' by Miss Sheila Forrest, Home Economist. The hostesses are Mrs. J. Hay, Mrs. Greig Sr. and Mr. Young. Everybody is welcome. You are invited.

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the two main photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the primary pigment, while Chl b acts as an accessory pigment, transferring energy to Chl a.

...AND THAT'S NOW

*we built the school"*

It's the biggest contract I ever went after, so I lost no time in getting over to my bank manager.

"George," I said, "I'll need some help to handle a job this size."

We went over the whole thing, discussed how much I would need. When I landed the contract he gave me a line of credit and I was able to go right ahead. Now the school's as good as built.

It is an everyday part of your local bank manager's job to provide short-term credit—so that payrolls can be met, material bought, goods produced and marketed.

We wonder how many fish mothers, more reluctantly, and with a forced and unfeeling smile, would a busy farmer last Tuesday morning, as the smallest ones trudged down the trail, for their first day at school.

"His grade in school," says Houghton, "and him not four.

Sure I saw the fight was in him

But he took the hand o' Denny  
An' a hand o' Dan,

MY FINE old root upon him—  
 And the poor tree was  
 How else the quaint figure.  
 Move about nor this;  
 And trust! right as steady  
 I watched his root turn in.  
 I watched him in the center  
 Of the big turf stack.  
 Ah! the more his feet went forth,  
 The less his head turned back.  
 For 'twas looking! would'st thou know—  
 Oh, my sweet was thus—  
 How 'twas 'twas in without him,  
 When he had to go.  
 I followed in the tracks!  
 But they passed it by.

And help him he was cryin'  
 An' maybe, so was I."  
 (Author Elizabeth Shaver)

**U.S. Grains to Flour East**  
Producers of developments in the Far East are expected to be considerable sources of United States wheat to Japan during the next six months. It is also reported that India is contemplating for annual imports of a million bushels of grain and straw over the next two years.

A review of the literature on obesity reveals increasing evidence that it is not caused by a genetic trait. In a review of body requirements, it

Dr. Heger quotes authorities as concluding that obesity—the state of being overweight—is caused by overeating with six causes of overeating men-

the gastrointestinal activities from the effects of foods, (3) the feeling of repose and comfort produced by the full stomach; (4) the temporary respite from difficulties obtained by indulging in food; (5) an unchanged appetite in persons whose habits need to be changed.

The use of a positive rather than negative approach to any diet is preferable, writes Dr. Ringer. The more normal the diet can be the better the psychological effect. The less the patient has to give up, the better.

The writer remarks on food fashions that abound, the nine most common being (1) the "no breakfast" or "poor breakfast" habit; (2) that brown bread has fewer calories than white; (3) the maximization is inferior to butter; (4) the

parison of foods; (5) that honey is natural sugar and consequently has caloric value; (6) that molasses has fewer calories than bread; (7) that water makes them fat; (8) that the colors from cooking make them fat; (9) that pills or starches alone will reduce weight.

of diet. And, definitely not in favor of methods of treatment which include serious endocrine therapy, especially thyroid extract, dimetrophenol, ephedrine sulphate and its dextro-isomer, amphetamine, diuretics, adrenal ther-

## ONLY WOMEN PILOTS ALLOWED

One of Canada's most exclusive aviation schools, the Canadian Women's Flying School, is now accepting applications for the 1951-52 season. The school is located in the heart of the Canadian prairies, and offers a comprehensive course in flying, including navigation, engine mechanics, and emergency procedures. The school is open to women of all ages, and no previous flying experience is necessary. The cost of the course is \$1,000, which includes tuition, food, and accommodation. The school is a non-profit organization, and all proceeds are used to maintain the school and provide scholarships for deserving students.

## WEAR A POPPY FOR REMEMBRANCE

On this day of the year, set aside so that all of us may pay tribute to that vast army of immortal souls, who gave their all in the name of freedom. We should also find time to remember the thousands of innocent victims who made the red land a battlefield of death. In the Val-Croix, where the battle was so fierce, the memory of the fallen is still fresh in our minds. Let us wear a poppy, a symbol of the sacrifice of our brave men and women, and let us remember them with pride and honor.

**Our Sincere Wish Is That This May Be A  
JOYOUS CHRISTMAS FOR ALL**

Christmas comes and Christmas goes and the stars in the Heavens continue on their appointed course. Out from the myriad of human emotions, out from the welter of human desires, Christmas stands like a beacon on a rock strewn coast, a guide to mariners sailing their craft through the sea of life. Adoration, worship, and giving are the themes of Christmas and these themes stand out from the every day world affairs like bright lights "amid the encircling gloom". To the children it is the day of days. Santa Claus to them is very real. To all of us older folks Santa Claus is very real also and will remain so as long as there are kind hearts and common folk around us upon whom to bestow gifts. Christmas keeps forever alive the unselfish love of one for the other, the desire to express that love in a visible and tangible manner before the curtain is drawn and all the good intentions of the world comes to naught, and glory-be, breaks down the barriers every day living inevitably raises among folk.

HERE AT WATSON'S and Dick's Quick Freeze Lockers we have much to be thankful for. First we are thankful that we have so many worthwhile and loyal customers; and furthermore we are thankful that we have been able throughout the somewhat difficult months to obtain merchandise that in the aggregate raises the standard of living within our district. It is nice to know that many farm housewives now possess house hold appliances which lighten their labors and are pleasing to operate. In the farm fields also we have placed quite a number of units and while the last crop season was a poor one we confidently look forward to better crop seasons ahead. We of the two establishments, all sincerely hope that this Yuletide will be a joyous one for you, that surrounded by family and friends you may share to the full the Spiritual and bounteous temporal blessings this wonderful season and this great country affords.

# **RYLEY MOURNS DEATH**

Mr. and Mrs. R. C. Ryley, of Tofeld, Alberta, are mourning the death of their son, Mr. R. C. Ryley, who died at his home in Tofeld, Alberta, on February 12, 1951, at the age of 35 years.

# **Ryley Ripples**

As the Ryley family mourns the death of their son, Mr. R. C. Ryley, the community mourns the loss of a young man who was a member of the Tofeld Community Centre and a member of the Tofeld Junior High School.

# **The Good Earth**

The Tofeld Community Centre is sponsoring a series of lectures on "The Good Earth" by N. C. Chubb, a well-known author and lecturer on the subject of soil conservation.

reasonable prices.

# **Prescriptions**

What are the reasons for the increase in the price of prescriptions? The answer is simple: the cost of the raw materials and the cost of the labor involved in the preparation of the prescriptions.

# **Automobile Theft**

An epidemic of Automobile Theft is making the headlines these days. If you are a motorist, have you thought about the possibility of your car being stolen?

**NOW 1/3 MORE COVERAGE THAN 1950!**  
With new low volume application

National Grain has always been well in the lead with the most up-to-date equipment for chemical weed control. Now, for 1951, National takes another giant step forward—introducing improved Teller and Tractor Model models spraying only 3 gallons per acre—equipped with results that spray accurately and efficiently, without clogging, at a lower volume than ever before.

With the new tank of 150 gallons capacity, 50 ACRES can be sprayed before stopping to refill and refill. This saves time and labor—conserves water—represents a revolutionary advance in efficient and economical weed control methods.

See your local National Manager or Authorized Dealer for the new National Sprayer for 1951, in English Open-ended and Power Teller-Tractor Model, or the Tractor Model Model. They're the answer to ALL your spraying problems—the acknowledged leader—with exclusive, patented features found on no other sprayer. They're the ideal sprayers for the application of weed or insect killing chemicals.

Thoroughly investigate ALL makes—you'll be satisfied with no other.

## Northern Quebec Taps vast Metal and Power Resources

A third generation of metals and hydroelectric power are now being tapped in the northern reaches of Quebec's Saguenay country, stretching from the shore of the Laurentian Ice Sheet to the Gulf of St. Lawrence. The area was picked in a June 1986 report by a panel of experts from the federal government's Atomic Energy Control Board. The area has been hailed as the world's largest producer of metals and hydroelectric power, and is rich in deposits of lithium. The region's potential for uranium, oil, and natural gas is also being explored. The report also says that the area has the potential to produce 100,000 jobs.

Canada and U.S. companies are now bidding the Saguenay country's resources. The area is rich in deposits of lithium, which is used in the production of batteries. The region's potential for uranium, oil, and natural gas is also being explored. The report also says that the area has the potential to produce 100,000 jobs.

Grand Falls, in Labrador, is one of the world's biggest enterprises with potential of five million horsepower sequel to three Niagara). The smaller Muskrat Falls, a hundred miles north of Grand Falls, is capable of developing only a half million horsepower. Eventually these iron-ore-rich rivers will provide energy for mining, hauling and smelting ore, and for pulp mills.

Manitoba may receive as much as 65 per cent from the article mills, and most of the rest under the same, ready for open-pit mining.

The Canadian graybeard crop is produced almost entirely in Ontario where the wine industry is centred.

 chemical requirements at National Grain.

Contains 64 ounces of 2,4-D acid equivalent per gallon. Fast chemical action, penetrates rapidly, is not affected by rain. An ideal chemical for field crop spraying, and especially recommended for "hard to kill" weeds and "woody growth" on non-crop lands.

Contains 80 ounces of 2,4-D acid equivalent per gallon. Fully effective against "easy to kill" weeds, and will kill or control "hard to kill" species.

In addition to 2,4-D, National handles a complete line of other agricultural chemicals for weed and insect control.

Continuation Of  
First Solemn Mass

The solemn mass continued in the afternoon at the same place. The Rev. Father J. J. McLaughlin, officiating, read the opening prayer and the first reading. The second reading was from the Gospel of St. John. The Rev. Father J. J. McLaughlin then read the prayer of the faithful. The mass concluded with the benediction and the dismissal.

# Special Notice to Employers AND Those Enlisting in Armed Forces

By the Veterans Benefit Act, 1951, passed at the last session of Parliament, the Government of Canada has extended and made applicable the provisions of the *Reinstatement in Civil Employment Act, 1946*, to all persons enlisting in the Regular Forces of Canada after July 5, 1950, (nineteen fifty) and who serve therein for a term not exceeding three years.

This provision extends also to members of the Special Force who re-enlist for service with the Regular Forces, the three-year coverage period beginning with the date of re-enlistment.

This provision extends also to members of the Reserve Forces who after July 5, 1950, are called out for service with the Regular Forces and serve with the Regular Forces for a period not exceeding three years.

By an Order in Council passed in 1950 under the *Canada Forces Act* the provisions of the *Reinstatement in Civil Employment Act, 1946*, were extended to members of the Special Force and members of the Reserve Forces who serve on the strength of the Special Force. The reinstatement provisions of this Order in Council have now been incorporated in the provisions of the *Veterans Benefit Act, 1951*.

**LETAL TOTS**  
A letter from the Minister of National Defence, Mr. J. G. Diefenbaker, to the Minister of Labour, Mr. J. G. Diefenbaker, regarding the reinstatement of veterans in civil employment.

**Heiberg - Magnuson**

Miss Inge Lillian Heiberg was the willing for a pretty dress-making ceremony held in the afternoon of July 25th, when Miss Bernice Mulder-Blackstone, only daughter of Mr. and Mrs. John Blackstone of Hays, became the bride of Mr. Andrew Magnuson of Heiberg, elder son of Mrs. Henry Heiberg and the late Mr. Heiberg.

Given in marriage by her father, the bride, looked lovely in an ivory satin gown with a draped lace capelet embroidered with gold and silver.

The bride was attended by her cousin, Mrs. Lorraine L. Hays, as mother of honor, and by Miss Norma Hebert, her cousin, and Miss Marie Hebert, sister of the groom, as bridesmaids. Lorraine chose a gown of blue brocade with white trim.

NEED MORE APPROVED FLOORS

For the past several years, the demand for good floors has been increasing. This is due to the fact that the average person is now living longer and is therefore more concerned with the appearance and durability of his home. The demand for good floors is also increasing because of the fact that the average person is now living in a more crowded environment and is therefore more concerned with the appearance and durability of his home.

There are many different types of floors available, but the best ones are those that are made of wood. Wood floors are beautiful, durable, and easy to maintain. They are also the most popular type of floor in homes throughout the world.

## How To Make The Most Out Of Meat

## The Week At Ottawa

**How To Make The Most Out Of Meat**

It is a well-known fact that meat is one of the most important parts of a balanced diet. It provides a source of protein, iron, and other essential nutrients. However, many people do not know how to cook meat properly, which can result in it being dry, tough, or overcooked. To make the most out of your meat, it is important to follow a few simple guidelines.

First, choose the right cut of meat for the recipe you are following. Different cuts have different textures and flavors, so it is important to select the right one. For example, a tenderloin is a great choice for a roast, while a brisket is better for slow cooking.

Second, marinate the meat. Marinating not only adds flavor, but it also helps to tenderize the meat. You can use a variety of marinades, from simple oil and vinegar to more complex ones with herbs and spices.

Third, cook the meat properly. Overcooking is the most common mistake people make when cooking meat. To avoid this, use a meat thermometer to check the internal temperature of the meat. Once it reaches the desired temperature, remove it from the heat and let it rest for a few minutes before serving.

Finally, slice the meat properly. For roasts and steaks, slice against the grain to make the meat easier to chew. For ground meat, use a fork to break it up instead of a spoon.

By following these simple guidelines, you can make the most out of your meat and enjoy it to the fullest.

You can now place your order for the new Sixth Series of Canadian Savings Bonds. They're going to get a hearty welcome from thousands of happy Canadians.

And no wonder—when you add all the handsome returns they pay! For instance, the owner of a new \$1,000 Canadian Savings Bond will get \$120 interest over the next 10 years and 9 months—an average per year of 2.12% for the period. A \$500 bond will pay \$73 interest over the same period. Think what amounts like these mean to you and yours!

This one you can buy up to \$5,000, in any one sum.

In the meantime your investment should sit on always-available source of cash to meet emergency needs—your cash-vep.

You can get your Canada Savings Bonds through your investment dealer or bank—for cash or on any instalment. If you work in an office or at home, ask about the convenient Payroll Savings Plan.

Whenever you choose, don't delay. Place your order today for Sixth Series Canadian Savings Bonds—now better than ever.

# Work of Bible Society In Korea Meets With Success

TOFIED, Nov. 23 (AP)—The work of the Bible Society in Korea is meeting with success, according to a report received here from Seoul, Korea. The report states that the Bible Society has been successful in distributing Bibles and religious literature throughout the country. It also mentions that the society has been successful in establishing churches and training ministers. The report further states that the Bible Society has been successful in converting many people to Christianity. The report concludes by stating that the Bible Society is continuing its work in Korea and expects to achieve even greater success in the future.

"I'll be glad to see  
the last of dirty ashes  
once we get. **OILHEAT!**"

Have a cleaner, more comfortable home. And have time to  
spare for those extra things you want to do.  
Heat and cook with oil and banish time wasted treading  
fire, and extra cleaning caused by ashes and dirt.  
Use Economical Heat Heating Oil in space heaters,  
boilers, furnaces, water heaters, automatic oil burners, hot water  
heaters, stoves, and  
through heaters and  
electric heaters.

● Give your oil burner  
equipment dealer for  
installation and service.  
Contact your nearest
